HAPPY NEW YEAR 2022
TO EVERYONE FROM TEAM UPASARG

Welcome to the first edition of our official Newsletter.

Over the last six years, Upasarg, specializing in Landscape Architecture, Master Planning, Environmental Design & Urban Design, has evolved into a strong, boutique consultancy firm with Proficient associates and an accomplished team.

Despite the pandemic, 2021 has been quite an eventful year at Upasarg. An important fact is that most of the team remained intact, supporting the office and we even added a couple of new professionals in the final quarter. Although much of the year was spent working from home, the team managed well, battling the odds and making progress together.

The past year has been one of learning, adapting to a new way of working, and balancing work, family, health, finances and personal life.

This has been an interesting challenge for us all. As we move into a new year, we hope to enhance our abilities and strive towards excellence together.

Landscape Design for Arogya Bhawan, Jasidih, Jharkhand

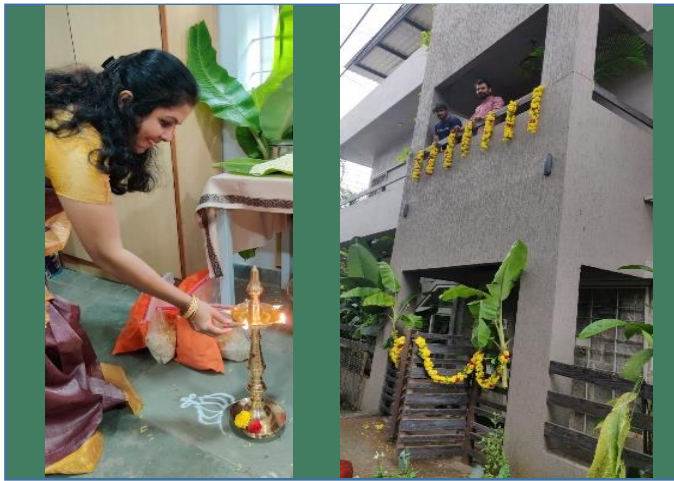

Through this newsletter, we hope to share with you our design approach, office updates, happenings, and activities on a quarterly basis, starting in the winter this year.

From the Editor's Desk

We take this opportunity in warmly thanking each one of our Clients, Associates, Vendors, and Families who have been with us in this journey of last 6 years. We look forward to continuing to serve you better in the future with all our dedication, sincerity, and commitment.

A sneak peek into our office events in 2021

We celebrated festivals together, had lunch/dinner events, Walk thru the woods, Team debates amidst our regular work. We believe in Team bonding for achieving excellence in work.
